

BEYOND CODE COLLECTIVE

Building intergenerational opportunity in the technologies of today and tomorrow.

THE TECHNOLOGIES REMAKING WORK WON'T WAIT FOR ANYONE TO CATCH UP.

60%

of jobs in advanced economies are exposed to AI.

SOURCE – IMF, 2024

39%

of workers' core skills will change or be outdated by 2030.

SOURCE – WEF FUTURE OF JOBS, 2025

1 in 3

advanced-economy jobs are at high risk of being replaced.

SOURCE – IMF, 2024

TECHNOLOGY SHOULDN'T COME WITH SHAME ATTACHED.

Beyond Code Collective exists because too many people are taught to feel behind before they even begin — like emerging technology is a language spoken too fast to catch up to. **Access starts with dignity: meeting learners exactly where they are, at any age, without barriers or shame standing between them and understanding.**

INTERGENERATIONAL BY DESIGN.

The one thing no one else does: wisdom leaders, caregivers, youth, and workers learning tech side by side. When the whole family learns together, communities don't just adapt to the future — they thrive in it, together.

INSPIRATION TO EMPLOYMENT.

ONE JOURNEY — A PLACE, A PATHWAY, AND A PLATFORM.

[01 · SPARK]

INSPIRATION

Relatable role models and step-by-step learning make emerging technology approachable — for every age and starting point.

[02 · BUILD]

TRAINING

Hands-on programs to build with AI and emerging tools, paired with industry-recognized credentials and a learning community.

[03 · LAND]

EMPLOYMENT

Real employer relationships, placement support, and lasting career mobility.

BEING RESPONSIVE IS KEY.

In a fast-changing market, adaptive curriculum and a structured model lead to success.

100%

of programs and workshops include an industry- or employer-aligned capstone project.

80%

goal for measurable skill gains in all programs.

75%+

likelihood of completing a structured, supportive virtual cohort — versus just 5% self-guided.

CENTERS

Where the whole family shows up. Intergenerational, site-specific hubs blending technology education, community engagement, and workforce development — designed with local stakeholders.

WHO IT SERVES

Learners of all ages, from K-12 youth to wisdom leaders 55+, learning side by side.

THRIVING FAMILIES

Caregivers learn alongside youth so the whole community builds tech confidence together.

MODEL

Culturally responsive programming, designed with local stakeholders.

CADENCE

2+ days of programming each week.

CATALYST

A cohort-based model that does what workforce programs rarely manage at once: industry-recognized credentials, whole-person development, and real employer relationships.

FORMAT

Cohort-based, free to qualifying participants.

TRACTION

90+ participants to date, building credentials and employer connections.

WHO

Adults 18+, no tech background — including working parents building new careers.

BCC ACADEMY

The Center is the destination — but training doesn't wait for a building. BCC Academy is our proprietary learning platform, already running live cohorts at national scale for learners of all ages.

ENROLLMENT

One link creates the account, signs the agreement, and places the learner in a cohort.

PROOF

Verifiable credentials issue the day a learner finishes; enrollment, completion, and placement flow to a live partner dashboard.

SPEED

A new cohort goes live within days of the decision to run it.

CODE ALONG BEYOND

Millions meet tech through faces that look like theirs — the top of the funnel that feeds the pathway and the Centers.

FORMAT

Free, video-based, self-paced — accessible anywhere with internet access.

VOICES

Relatable STEAM role models and celebrity ambassadors bring the curriculum to life.

REACH

Millions of learners worldwide, spanning K-12 through adult.

230 LEARNERS IN OUR FIRST 90 DAYS.

That's the demand at one location. Imagine ten.

230+

learners served at the Atlanta Center
in the first three months — at one
location, just two days a week.

90+

Catalyst participants building
credentials and employer
connections.

14+

founding partners spanning
government, arts and culture,
and industry.

[IN THE PRESS]

AS FEATURED IN

The Atlanta Journal-Constitution

"The Beyond Code program introduced me to different tools that I had never heard of... the prompts and things we use, I try to apply directly to my business. I was just trying to see how I can leverage AI and tech within my small business."

"A NEW NONPROFIT IS BRINGING AI TRAINING TO ATLANTA ENTREPRENEURS" — THE ATLANTA JOURNAL-CONSTITUTION

PARTICIPANT PERSPECTIVES

"Our first intro session made me feel excited about understanding technology in a more approachable way. It was inspiring to learn together, ask questions freely, and grow our confidence with tech as a community."

CATHY — WISDOM CIRCLE LEARNER (55+)

"The leaders were intentional about meeting us where we are and approaching AI in a healthy, balanced way. It felt like a safe space to connect, share resources, and prepare for the future of AI together."
